

F.A.S. WORKFLOW

How F.A.S. Works

Independent forensic audit and documented human review for AI-influenced hiring decisions.

THE WORKFLOW

1

ATS Generates a Rejection Decision

The employer's own ATS or AEDT scores, ranks, or filters a candidate and logs a rejection. This decision is made and recorded inside the client's own system.

2

F.A.S. Is Notified via Webhook

The rejection event is pushed to F.A.S. near-real-time, the moment it's logged. F.A.S. does not sit between the ATS and the candidate and does not delay candidate notification — it audits the decision that was made.

3

Forensic Audit Runs Automatically

Every received rejection is scanned for five compliance signals: employment gap penalty, keyword mismatch, proxy discrimination, disparate impact, and legal framework triggers.

Audit runs against real applicant-pool statistics, not a single-record heuristic.

4

Flagged Decisions Route to a Human Reviewer

For F.A.S. HOTL clients, any flagged decision routes to a named human reviewer with full context: candidate profile, ATS rejection reason, and the specific flags triggered. The reviewer can override, approve with a written justification, or escalate.

5

Decision Is Logged — With an Audit Trail

The reviewer's decision is logged with timestamp, reviewer identity, and written rationale in an append-only compliance record.

An Independent Check, Not a Rubber Stamp

F.A.S. Auditing produces the independent statistical findings a regulator recognizes. F.A.S. HOTL adds a documented human reviewer on every flagged decision. Neither one replaces the other.

HUMAN REVIEW · AUDIT TRAIL · INDEPENDENT FINDINGS

Jurisdiction Coverage: Colorado SB 189 · NYC LL144 · EU AI Act

What You Get

Decision Log

Timestamped record of every audited rejection, human review, and override, with reviewer identity.

Independent Findings

Statistical bias-audit results (4/5ths ratio, disparate impact) delivered as a standalone report by F.A.S. Auditing.

Compliance Record

Append-only audit trail supporting regulatory response and litigation defense — not a substitute for legal advice.
